Versatile UX Designer with deep experience in human-centered design for complex systems. Specializes in workflow analysis, usability testing, and scalable interaction design for environments where clarity, reliability, and long-term system integrity matter. Long-standing interest in applying these skills to healthcare and clinical experiences.

RELEVANT EXPERIENCE

Principal UX Designer, Beech Valley Solutions

ROANOKE, VA | APRIL 2020 - JUNE 2023

Worked closely with a 30-person staffing firm to convert their manual, error-prone workflows into valuable, usable software. Through user interviews, task analysis, and iterative usability testing, helped turn fragmented, time-consuming processes into efficient software systems that reduced cognitive load and operational friction.

Lead Product Designer / Manager, Citrix

RALEIGH, NC | JULY 2017 - AUGUST 2019

Led a team of designers on a significant overhaul of Citrix's Cloud products, defining and validating interaction models for complex enterprise workflows. Collaborated closely with Product and Engineering to evaluate workflow risks, usability tradeoffs, and system constraints to deliver a new large-scale enterprise platform used by distributed teams. Also responsible for hiring and growing the Raleigh design team.

UX Design Lead / Manager, Pendo

RALEIGH, NC | MAY 2015 - JUNE 2017

First design hire at an early-stage startup that has scaled to over 1,000 employees. Led end-to-end design efforts across Product, Marketing, and Brand, with a strong focus on usability and user research. Built and mentored a design team as the company grew. Partnered closely with executive leadership, Product, and Engineering to research, test, and deliver solutions for complex user workflows.

User Experience Designer, Rackspace

BLACKSBURG, VA + SAN FRANCISCO, CA | APRIL 2008 - JUNE 2014

UX and interaction design for the management software that supports Rackspace's cloud servers. Worked with a small team of designers to design, iterate, and launch a new cloud control panel, combining three existing products. Led small and large user research efforts. Also an integral part of the design and development of a UI library for all of Rackspace's customer-facing software.

EDUCATION

Bachelor of Fine Arts,
Visual Communications
Design, 2006
Summa Cum Laude

Virginia Polytechnic Institute
& State University

SKILLS

Usability Testing
User Research
